Review Nine Purposes of the Order
● Preliminary Report due September 15, 2011
● Item 1 - Management that will encourage economical timber harvests in the future
  o Use of the words “traditional” and “economic timber harvesting” in the same sentence creates quite a quandary
  o Owen Graham said that traditional and economic to the Timber industry means that the primary purpose is to provide timber to the mills, and both the loggers and the mills have an opportunity to make a profit.
  o Important to note any existing pre-commercial thinning (PCT) backlog that could accelerate economic development
● Item 2 - Future additions of state land to existing state forests
