ADDITIONAL REQUIRED INFORMATION

1. Project and School name (five words or less):
2. Maintenance and Operations Manager & Permission to plant trees at this location:

Name/Title:	E-mail:
Address:	Phone:
	Signature:

3. Tree Steward (person responsible for caring for trees for three years):

Name/Title:	E-mail:
Address:	Phone:
	Signature:

PROJECT INFORMATION

4. Total Grant Amount Requested for Trees:
5. Total Grant Amount Requested for Supplies:
6. Total Grant Amount Requested:

Project Details

1. Design - Tell us a little bit about your project. Describe the site and location, and why you selected it. Tell us how you selected the trees that you did.
2. Education - How will the project increase students understanding of the benefits of trees or community forests?
3. Participants - Who will participate and how? List individuals, agencies, or classrooms.
4. Maintenance plan - Proper care is very important, especially in the first three years after planting. What is the source of water (e.g. spigot and hose, drip hoses, water gators, etc)? Who will be responsible for watering, and caring for the plants? If planting a fruit tree, how will you collect and distribute the harvest?
5. Wildlife - How will you protect the trees from moose, rabbits, voles, and other wildlife?
6. Goals - List some desired outcomes and how you will measure success.

Tree Planting Plan: Draw here or attach a one-page drawing (or aerial map, such as google earth) for each planting site. If you are planting a tree indoors please include a description of the proposed location (greenhouse, atrium, other).

A large grid for drawing a tree planting plan. The grid consists of 12 columns and 12 rows of squares, forming a 12x12 grid. The lines are thin and light gray.

Checklist:

- north arrow and Scale (for example 1" = 10'- 0")
- each new tree or shrub to be planted, include key designation from Tree Schedule
- spacing between new trees -- be sure to include enough room for mature width (10' minimum for dwarf trees)
- avoid planting near streets, powerlines, underground utilities, or utility easements
- show elements that will affect sun, shade, water, rooting area etc. (e.g. existing trees, nearby buildings, streets, parking areas, foot paths, property lines, retaining walls, fences, streams, bogs, and/or areas subject to flooding or standing water, snow storage areas)

Tree Schedule: Identify the trees and shrubs you plan to plant, list the species, number, type, and size of trees that will be planted. If additional schedule area is needed, edit schedule size or include a separate xeroxed attachment that includes the same details requested by these tables.

Key	Tree Species/Cultivar (list cultivar if known)	Pot Size/ Bare Root	Number Planted	Cost per Plant	Cost
Total Tree Cost					

Supplies: Please list items you intend to purchase to aid you in the tree planting project and their estimated price. Eligible items include mulch, stakes, hoses, gloves or other planting materials. If trees are planted indoors, grant funding may be used for the purchase of LED grow lights.
