DOF Daily WildFire Update

It was another big lightning day in Alaska, with more than 5,800 strikes recorded as of 10:15 p.m. Saturday, June 19. Most of the strikes were located in the Upper Yukon-Tanana and Fortymile regions. Expect more wildfires to pop up in the next few days as a result.

Haystack Fire (#196)

Acres: Estimated 927

Containment: 30%

Personnel assigned: 249

Location: 18 miles N of Fairbanks

Weather: Drying day today with afternoon thunderstorms.

- Fire is smoldering and creeping in the dry duff, leaves and needles covering the forest floor.
- Crews have detected heat up to 12 inches deep in the duff on the south end of the fire, while on the north side, heat depth is approximately 5 inches. The particularly deep hot spots pose threats to revive the fire if a warm, dry weather pattern returns.
- Cool weather, higher humidity, and relatively calm winds continue to decrease smoke and visible fire activity.
- Firefighters continue to construct and improve containment lines around the perimeter.
- Yukon Crew was added to the mix on Saturday to increase the number of crews working on the fire to 7 (2 Type 1, 3 Type 2IA and 2 Type 2). Also 3 helicopters, 4 engines and 8 dozers working on fire.
- Crews are building helispots to facilitate movement of supplies and firefighters.

• Engines and dozers are also staged in the Haystack Subdivision area, evaluating risk to homes in the area and providing information to homeowners to reduce hazards.

George Lake Fire #225

Acres: 6

Containment: 70%

Personnel assigned: 20

Location: 40 miles SE of Delta Jct

Weather: Cooler with rain but clearing Sunday afternoon.

- 20% increase in containment; no new growth.
- 8 smokejumpers demobed on Saturday and Baker River Hotshots (20 persons) took over the fire.
- Crew is mopping up inside the perimeter and working to get water on the fire.
- Fire behavior described as minimal and smoldering; no fire spread anticipated.
- Nearest water source is ³/₄ miles away, which presents a challenge getting water to the fire.

About Mountain Fire #193

Acres: 2,135

Containment: 44%

Personnel assigned: 92

Location: 6 miles south of McGrath along the east bank of Kuskokwim River.

Weather: Cool, wet conditions today.

- Fire fighters continue to take advantage of cooler and wetter weather.
- Fire is 44% contained and containment is expected to climb above 60% by end of shift today.
- Firefighters will continue to secure the fire's edge and begin mop up to 300 feet in off containment lines.
- Structures in Cranberry Ridge Subdivision have been prepped as a long-term contingency plan.
- One allotment three miles south of the fire has been identified and an allotment protection contingency plan is in place.
- The Pioneer Peak Hotshots, Two Type 2 crews, and 24 Smokejumpers are assigned.

Loon Lake Fire #180

Containment: 100%

Acres: 102

Personnel: 25

Location: Remote part of Kenai National Wildlife Refuge, 10 miles northeast of Sterling

Weather: Cool and showery today.

- No new growth or fire activity with help from cloud cover and preciip.
- Transitioned from Type 3 to Type 4 organization Saturday.
- Gannett Glacier Crew demobed from fire on Saturday. UAF Nanooks Wildland Fire Crew will be staying on fire for the duration with Type 4 organization.
- Griidding and mopping 100 feet or deeper into perimeter.

North Fork #216

Containment: 100%

Acres: 3.2

Personnel: 17

Location: 20 miles NE of Nikolai.

Weather: Cloudy and cooler today.

- Substantial rain over the fire Saturday night.
- No growth or smoke observed on fire.
- Mat-Su Crew (17 persons) is gridding perimeter of fire for any remaining hot spots.
- Goal today is to secure perimeter 50' in from the green.
- Planned demobilization on Wednesday or Thursday.

Minto Lakes Fire (#186)

Containment: 100%

Acres: 28

Personnel: 0

Location: Approximately 50 miles west of Fairbanks

Weather: Cloudy and cooler today with wetting rain forecast

- All personnel demobed from fire on Saturday.
- No heat or smokes observed.
- Fire was declared out at 3:37 p.m. Saturday.

Winter Tail #194

Containment: 80%

Acres: 20

Personnel: 22

Location: 14 miles NE of Fairbanks, less than 1 mile from Ft. Knox Gold Mine.

Weather: Warming and drying today with afternoon thunderstorms in the forecast.

- Very little smoke observed on fire and no anticipated spread.
- Fairbanks #1 crew replaced Yukon Crew on Saturday and Yukon Crew wen to Haystack Fire.
- Crew is mopping up, gridding for hot spots and cold trailing for hot spots to reach full containment.
- Anticipated demobilization of all personnel on Tuesday.
