

Dear Traveler:

This letter outlines the required procedures that need to be followed in order for the Alaska Native Medical Center's (ANMC) Contract Health Services (CHS) program to consider authorizing payment for **emergency medical care** while traveling outside the State of Alaska. "Emergency" means any medical condition for which immediate medical attention is necessary to prevent the death or serious impairment of the health of an individual. You must maintain Alaska residency and may be required to provide proof that Alaska residency has been maintained. Indian Health Service (IHS) facilities must be utilized when they are available. Prior to departing Alaska, you can verify if there is an IHS facility close to where you will be traveling by checking the web site at "http://www.ihs.gov/FacilitiesServices/AreaOffices/AreaOffices_index.asp". If you decide not to seek care at an available IHS facility, ANMC CHS will be unable to authorize payment for the medical care.

ANMC CHS must have eligibility documentation (Certificate of Indian Blood or tribal enrollment card issued by a federally recognized tribe) on file at ANMC. If emergent medical care is required, ***CHS must be notified within 72-hours (including weekends and holidays) from the beginning of medical treatment or admission to a health care facility.*** The patient or the patient's family has the ultimate responsibility of notifying CHS by calling (800) 478-1636. During those times the ANMC CHS office is closed you can leave a voice mail message. Leave your full name, date of birth and a contact telephone number. CHS staff will return your call the next business day. ANMC CHS is not an insurance program and does not provide coverage for travelers who are residents of the following service units: Annette Island, Tanana Chiefs Conference, Southeast Alaska Regional Health Consortium, or Ketchikan Indian Corporation.

Services that shall not be authorized by ANMC Contract Health include:

Routine obstetrical care.	Medications purchased while traveling.
Routine or emergent dental care.	Inpatient/outpatient mental health services.
Routine/non-emergent care and follow-up appointments.	Inpatient/outpatient substance abuse services.

You are required to provide, within 30-days, the medical records for all out-of-state medical care you receive. This can be accomplished by signing a release of information form from the facility to ANMC. The records will be reviewed by medical professionals to determine if the care you received is emergent. If upon medical review, the medical care received is considered non-emergent, CHS is unable to authorize payment. If payment is approved, it is the patient or patient's family ultimate responsibility to ensure that CHS receives all claims and applicable insurance information in a timely manner. CHS is unable to authorize payment for delinquent accounts due to untimely submission of claims and/or insurance information. For those traveling outside the United States, traveler is required to pay up-front for the medical care they receive, must still notify CHS within 72-hours from the beginning of treatment, must still provide CHS with the medical records, and can submit receipts to CHS for reimbursement consideration upon returning to Alaska.

For individuals moving outside the State of Alaska, you are encouraged to register and utilize the services available at the closest IHS facility. You can access the list of IHS facilities on-line at the internet address provided above. ANMC CHS cannot guarantee that you will be eligible to receive services at any of these facilities because each area has its' local policies for determining who is eligible to receive care at that facility. **As a mover, ANMC CHS is only able to provide coverage for emergent medical services for 180-days from the date you left Alaska.**

Lastly, as a traveler or mover, you are required to provide proof, with date, of when you left Alaska should you need financial assistance with medical care. This can be accomplished by your saving and providing those airline tickets or itineraries to CHS if requested.

Please call CHS at **800-478-1636**, select option 1 then select the option corresponding to the first letter of your last name should you have additional questions or concerns. Thank you and have a safe trip.

TANANA CHIEFS CONFERENCE

CONTRACT HEALTH SERVICES, 1717 W. Cowles St., Fairbanks, Alaska 99701
Telephone: 907-451-6682, ext. 3613; 1-800-770-8251, ext. 3613 Fax: 907-459-3813
Hours: Monday through Friday, 8:00 am to 5:00 pm, Alaska Time

Date Issued: _____, Date leaving Alaska: _____, Date returning to Alaska: _____ To: _____

DOB: _____ CHART: _____

Thank you for asking about Contract Health funding for emergent medical services while you are outside of Alaska. Tanana Chiefs Conference may cover you for emergency medical services for 180 days (6 months) from the date you leave Alaska. *You may be asked to show proof of the date you departed Alaska.*

Services not funded include non-emergency care, care for conditions you had before you left Alaska, dental care, services received in a foreign country (ask about care in Canada), etc.

Some examples of non-emergency health needs, which are not usually covered:

- Urinary tract infections
- Colds
- Sinus infections
- Diarrhea/Vomiting
- Minor rashes
- Medication refills

Here is how to receive funding for your care and other options for you to consider:

⇒ **You must use Indian Health Service clinics and hospitals if they are available to you.**

Take with you proof that you are an Indian Health Service beneficiary, such as your BIA Certificate of Indian Blood or your tribal enrollment card. Corporation cards may not be recognized as proof of Indian Health Service eligibility.

⇒ **In a truly life threatening emergency, get the care you need.**

You then have 72 hours to call Contract Health and request funding. If you use the ER for healthcare that is not an emergency, YOU may be responsible for the bill. The ER is a place where **only** specialized emergency care is received.

Examples of emergency that may be treated in the ER:

- Heart attacks
- Serious falls
- Severe bleeding
- Poisonings
- Serious burns
- Serious injuries from car accidents

⇒ **You must receive prior funding authorization from Contract Health FOR EACH VISIT if additional visits are needed.**

You may be responsible for paying the bill if you receive care without first having funding approved. When you call Contract Health for funding authorization, please have the following information available:

1. Name of the CAIHC doctor or nurse and the date and time you spoke with the person
2. Patient's name, birth date
3. Nature of the emergency (diagnosis if known)
4. Name, address, and telephone number of the private doctor, clinic, and/or hospital
5. The appointment date and time or the date(s) care was received
6. Name of patient's insurance company(ies) and policy number(s) or Medicaid number
7. The date you left Alaska and the date you plan to return to Alaska

⇒ **Sign the provider's "Assignment of Benefits" forms.**

⇒ **Give the provider all your insurance information.**

All other payers must be billed before Contract Health can make payment as the final payer.

⇒ **Sign doctor and hospital "Release of Information" forms.** These forms allow the doctor and hospital to send copies of your medical records to CAIHC. Payment cannot be made until these records are received at CAIHC.

I have read and understand the above information.

Have a safe and speedy return to Alaska!

State of Alaska Department of Natural Resources

Division of Forestry

Burn Injury Protocol

Filing Procedures and Responsibilities

The Area must report any event involving death or in-patient hospitalization to the Regional Forester and the Division's Safety Officer within 8 hours.

The State of Alaska uses the State of Alaska Department of Labor's "Report of Occupational Injury or Illness to Employer" (Form 07-6100), and the State of Alaska's "Supervisor's Accident Investigation Report" (Form 02-932) to document work-related injuries and illnesses. When an employee has been, or claims to have been, injured or becomes ill from work-related causes, Form 07-6100 must be completed and submitted immediately to the applicable Finance Section, Area Admin, or Regional Admin. Failure to file Form 07-6100 within the required time may subject the Area/Region's operating budget to a penalty equal to 20% of the amount of compensation payable to the injured employee. An employee may file one of these reports at any time. No one has the authority to deny an employee the right to file.

See that copies of the Form 07-6100 and Form 02-932 (Supervisor's Accident Investigation Report) are faxed immediately to the employee's home unit. Copies are also provided to the Division of Forestry's Safety Officer with any personal identifying information such as name, address or social security number blacked out.

At no time should employees comment on the likelihood of a claim being covered other than to inform the injured or ill party of their financial liability if the claim is determined not to be work related.

Final determination of work-related validity is the responsibility of the Adjustor. It is important that an employee is forewarned that they may be liable for any medical costs incurred if the injury/illness is determined NOT to be work-related. After learning an employee has been or claims to have been injured, Form 07-6100 must be completed and submitted immediately to the applicable Finance Section, Area Admin, or Regional Admin. If an employee chooses not to file, the supervisor may file on the employee's behalf relaying whatever information is available to them.

The agency administrator or designee for the incident will coordinate with the employee's home unit to identify a Worker's Compensation liaison to assist the injured employee with worker's compensation claims and procedures.

Required Treatment for Burn Injuries

The following standards will be used when any firefighter sustains burn injuries, regardless of agency jurisdiction.

After on-site medical response, initial medical stabilization and evaluation are completed: the agency administrator or designee having jurisdiction for the incident and/or firefighter representative (e.g. Crew Boss, Medical Unit Leader, Compensation for Injury Specialist, etc.) should coordinate with the attending physician to ensure that a firefighter whose injuries meet any of the following burn injury criteria is immediately referred to the nearest regional burn center. It is imperative that action is expeditious, as burn injuries are often difficult to evaluate and may take 72 hours to manifest themselves. These criteria are based upon American Burn Association (ABA) criteria as warranting immediate referral to an accredited burn center.

During these rare events, close consultation must occur between the attending physician, the firefighter, the Agency Administrator or designee and/or firefighter representative, the firefighter's physician (if they have one), and the burn center to assure that the best possible care for the burn injuries is provided.

Burn Injury Criteria

- Partial thickness burns (second degree) involving greater than 10% Total Body Surface Area (TBSA)
- Burns (second degree) involving the face, hands, feet, genitalia, perineum, or major joints
- Third degree burns of any size are present
- Electrical burns, including lightning injury are present
- Inhalation injury is suspected
- Burn injury in someone with preexisting medical disorders that could complicate management, prolong recovery or affect mortality (e.g., diabetes).
- Any patient with burns and concomitant trauma (such as fractures) in which the burn injury poses the greatest risk of morbidity or mortality. In such cases, if the trauma poses the greater immediate risk, the patient may be initially stabilized in a trauma center before being transferred to a burn unit.
- When there is any doubt as to the severity of the burn injury, the recommended action should be to facilitate the immediate referral and transport of the firefighter to the nearest burn center

Severity Determination

- First Degree (Superficial) Red, sometimes painful
- Second Degree (Partial Thickness) Skin may be red, blistered, swollen, painful to very painful
- Third Degree (Full Thickness) Whitish, charred, or translucent, no pin prick sensation in burned area

Additional guidance regarding federal employees and a list of possible burn care facilities may be found at: http://ameriburn.org/verification_verifiedcenters.php

Link to the Interagency Standards for Fire & Aviation Operations 2017; see Chapter 7 for additional burn injuring information.
