#### INSTRUCTIONS

When completed, this offer constitutes a permanent record for utilization by the State of Alaska Division of Forestry. You will have the opportunity to change the terms of the offer at your discretion in writing or annually upon submission of the form by DOF.

Several aircraft may be listed on the form when appropriate. When one line entry represents several identical aircraft, indicate in column at right.

DOF will request aircraft for use in fire control efforts and may request special equipment or conditions to accomplish the mission. Typical requests are for external cargo nets, external cargo racks, or buckets. Interagency fire operations will require OAS inspection and carding of the aircraft and pilot prior to use.

NOTE: other technical and administrative requirements are found on Form 10-3134, "Rental Conditions". Services not meeting those conditions may not be utilized by the State Division of Forestry.
