**RESULTS OF COMMUNITY RECREATION SURVEY
HAINES AREA
SPRING, 2001**

Community residents were asked (Spring, 2001) to complete a survey on community recreation and perceptions related to commercial recreation. The survey was sent to each of the communities within the planning boundary of the Northern Southeast Area Plan.

The level of response varied by community, with the response level for Haines being especially high. Some 248 surveys were received. Surveys were sent to each Post Office box-holder in Haines. It should not be inferred that the results of this survey are statistically relevant since rules of sampling and survey quality were not observed in their entirety. However, the results do give an indication of community recreation patterns and perceptions. Note: the survey also went to Skagway residents and results are included in these totals.

Q1. Where do you recreate. (Respondents were given a map and asked to indicate the location. To expedite understanding the surveys were grouped into general geographic units, which follow). The number of respondents using each area is given.

- Chilkat River Systems (89)
- Chilkat Inlet (23)
- Chilkoot River/Inlet/Lake (62)
- Taiya Inlet/Skagway (8)
- Chilkat Peninsula (59)
- Lynn Canal (7)

Q2. What is the primary recreation use broken down to general area. Keep in mind that each respondent identified up to three sites, so the figures for each use are going to be considerably higher than the number of surveys.

(It should be noted that Glacier Point constituted only 35 percent of the sites identified within the Chilkat Inlet as a place for residential recreation.)

Q4. Is commercial recreation present in the area(s) where community recreation occurs?

- Yes, 205
- No, 41

Q5. Are these commercial recreation activities intrusive?

- Yes, 110 (45 percent)
- No, 136 (55 percent)

Q6. Identify three primary areas where commercial recreation activities that are intrusive occur. The number of responses for each site is given. *It should be noted that 90 percent of the responses for Chilkat Inlet/Lynn Canal refer to Glacier Point as being an area with intrusive activity.*

- Chilkat River System (89)
- Chilkat Inlet/Lynn Canal (49)
- Chilkoot River/Inlet (80)
- Taiya Inlet/Skagway River (10)

- Don't know, 7 • Occurs throughout the area, 49

(It should be noted that these figures are low because many people did not respond to this part of the question).

Q7. Identify the primary commercial recreation activities that are taking place.

Q8. What is the overall severity? (On a scale 1 to 10, with 10 being most severe)

- Chilkat River System, 7
- Chilkat Inlet, 8
- Chilkoot River/Inlet, 8
- Chilkat Peninsula, 6

Q9. What were the principal problems associated with the commercial recreation activity?

Chilkat River System
